Experience

Grit Marketing
Designer | October 2022 - Present

At Grit I've worked to evolve the brand and excel them technologically any way I can as far as the internet goes. I designed and manage the website, along with tracking KPIs. Anything web related I work closely with the company to do. Not only that, but I do merchandise design, motion graphics, signage, both print or digital. General in house design needs, etc.

Equityblue Inc
Designer | 2020-2022

At Equityblue I designed the identity of not only the company, but one of the company's products. This a software called Momentum. I worked closely with developers designing the UI/UX of this software which was ultimately an intricate tool used for retail options traders also known as option flow + dark pool.

Westminster College ASW
Executive Creative Director | July 2020 - May 2021

As Executive Creative Director I managed the creative team. I oversaw all communication between the organization and the student body of the school. This included overseeing both a newsletter using email marketing, as well as their website on wordpress.

SLCC Printing Services
Wide Format + Screenprinting Tech | May 2019 - May 2020

I received training in both wide format and screen printing. I learned the logistics of physical design by doing many things such as wrap installations, sticker, and poster production, sublimation, color matching, and screen printing.

Westminster College ASW
Associate Creative Director | May 2019 - May 2020

I worked with various organizations and people to create marketing deliverables for events, and announcements.
